PROJECTS:

Claims Data Analytics Pipeline

Loyola Marymount University

Spring 2026

Los Angeles, CA

- Built an end-to-end healthcare claims analytics pipeline using SQL, dbt, Snowflake, and GitHub Actions; designed a star schema mart from CMS Medicare data (5,000+ provider records) to enable structured querying of payment and denial rate trends.
- Deployed an interactive Streamlit dashboard with descriptive and diagnostic analytics views, surfacing provider payment-to-charge ratios and denied amounts by place of service — tailored to a Claims Data Analyst role at Molina Healthcare.
- Built a Claude Code–powered knowledge base from 15+ scraped sources (press releases, earnings calls, regulatory filings) synthesized into wiki pages queryable via natural language.

EXPERIENCE:

Summer Intern

Hireframe (offshore staffing)

May 2024 – July 2024

Los Angeles, CA

- Used Excel and LinkedIn Analytics to identify potential clients in Los Angeles
- Reached out to midsize Los Angeles businesses to recruit as clients
- Collaborated with L.A. business owners via email and Zoom to help transition them to remote staffing; presented findings using Microsoft Word & PowerPoint
- Compiled and analyzed data from multiple sources to identify market trends in offshore staffing and support business development targeting
